Engaging students and providing opportunities for classes to improve with modern technology.

“ LiteracyPlanet has brought in an innovative way of developing the language skills in students.

”

Arunima Sur
Assistant Teacher
Birla High School (Mukundapur)

Why they chose LiteracyPlanet

Birla High School (Mukundapur) uses technology to help consolidate key principles in students, so they can become leaders in an increasingly changing world. LiteracyPlanet has been implemented to help consolidate key English literacy concepts.

How the school uses LiteracyPlanet

Birla High School (Mukundapur) has always believed in the importance of making lessons as fun and interesting as possible for students, and LiteracyPlanet helps them achieve this. Teachers focus on grammar and spelling, but have also seen great results using the program for comprehension and reading.

“

It definitely improves the performance of the students academically.

”

Zoya Alam
Teacher
Birla High School (Mukundapur)

At home and in the classroom

LiteracyPlanet is being used in multiple ways by Birla High School (Mukundapur). Some teachers have implemented it in their classwork, while others use the program to set after school work that ensures the students have understood what has been taught during class.

Positive student engagement

Students at Birla High School (Mukundapur) love using LiteracyPlanet. Students enjoy the gamified elements of the program, where they're awarded with coins and certificates for completing exercises correctly. They also enjoyed the mini-games at the end of the exercises.

“

Learning really becomes fun when LiteracyPlanet is used. This not only enhances their vocabulary in English but also promotes their concentration.

”

Jolly Talwar
Teacher

Birla High School (Mukundapur)

At home and in the classroom

Teachers at Birla High School (Mukundapur) enjoy the fact that the results are automatic so they can give the students meaningful feedback on their process, as well as assessing which areas they are doing well in and which areas they can improve.

Versatile learning options

LiteracyPlanet can be used in multiple ways during the teaching of English in classroom, as well as a self-learning program in IT classes. Students work through exercises in classes, and at home to make concepts concrete through practise.

“

The children have started reading unknown difficult words by sight. The students can read sentences independently.

”

Jolly Talwar
Teacher

Birla High School (Mukundapur)

Empowering students

Teachers have seen vast improvements in students, especially in reading and writing skills. Students have also told teachers how much fun and effortless it is to solve the exercises and how much they enjoy the content.
