

Escola Beit Yaacov School

Location: São Paulo, Brazil

Type: Private international school

Nurturing improvement and helping English language learners confidence.

“

We have seen improvement in spelling and students do enjoy using Literacy Planet.

”

Daisy Maciel Duarte Gava
English Coordinator
Escola Beit Yaacov School

Why they chose LiteracyPlanet

Escola Beit Yaacov School is a private school located in São Paulo, Brazil. Over the past few years the school has been looking to implement technology in the classroom through phones, tablets and Chromebooks. LiteracyPlanet provides the perfect resource to **facilitate the development of English literacy skills** with students using the program in the classroom and at home.

How the school uses LiteracyPlanet

LiteracyPlanet is primarily being used from Grades 2 to 5 with a focus on Spelling and Grammar exercises. It's providing a way to **keep students interested** in the practise necessary to master these elements. ESL teachers also use LiteracyPlanet, to help English learners **feel more confident**.

“ The program has provided the extra practice we needed in an engaging manner.

”

Daisy Maciel Duarte Gava
English Coordinator
Escola Beit Yaacov School

At home and in the classroom

Students have found LiteracyPlanet's exercise engaging, and particularly enjoy **unlocking prizes in the arcade**. Teachers have also appreciated the possibilities the program has opened up for their classroom activities.

Positive student engagement

Teachers have found that students have been highly **motivated to create their own Spelling Lists** for LiteracyPlanet exercises and students have also enjoyed earning coins they can use to unlock games in the arcade. The school has an annual Spelling Bee and LiteracyPlanet is being used to help students prepare.

“ Teachers motivate learners to create their own spelling lists, which are subbing personalised spelling lists we had on paper. ”

Daisy Maciel Duarte Gava
English Coordinator
Escola Beit Yaacov School

Useful teacher resource

Teachers appreciate the fact that LiteracyPlanet's exercises are aligned to the Brazil National Common Curricular Base (BNCC). They also like the ability to **assign multiple exercises in a sequence**.

Versatile learning options

The school has used different online literacy programs before, but found that LiteracyPlanet has a **greater breadth of content, superior reporting functionality and more to offer** in regards to grammar, reading, writing and spelling.

“ We have an ESL teacher who works as a private tutor and he has mentioned our new learners feel more confident.

”

Daisy Maciel Duarte Gava
English Coordinator
Escola Beit Yaacov School

Empowering students

LiteracyPlanet has played a significant role in nurturing students who already have a reasonable level of English and giving students with a low or non-existent level of English **more confidence in their abilities.**
