

Aqeeq International School

Location: Medina, Saudi Arabia

Type: K-12 International school employing Islamic values

LiteracyPlanet: The answer to the strict international literacy standards of Aqeeq International School.

“

LiteracyPlanet is developing our students to be deeper thinkers, where they question and challenge what they learn. This is setting them up to be the type of distinguished citizens our school is proud to educate.

”

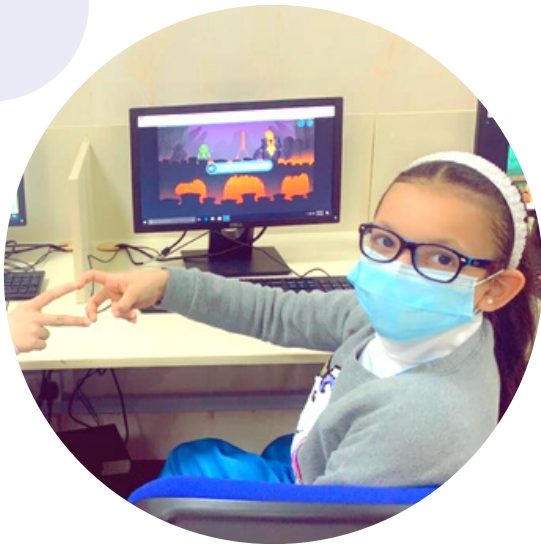

Mr. Muhammad Antar Elsayed Ibrahim
English Teacher

Why they chose LiteracyPlanet

Based in Saudi Arabia's Medina, Aqeeq International School has built a culture of best practice education, fun and engaging learning, and friendly competition. This award-winning school has many academic competition champion titles to its name and credits LiteracyPlanet with being one of the key contributors to its success.

LiteracyPlanet's worldwide Word Mania competition for schools introduced the teachers and students at Aqeeq International School to the LiteracyPlanet platform. And they haven't looked back since!

How the school uses LiteracyPlanet to improve literacy outcomes.

1,300 students from KG 1 to Grade 10 now benefit from LiteracyPlanet access. The program is used by these students in a range of ways: in class, for group work, as homework and in in-school competitions. Thursdays are for LiteracyPlanet competitions among classmates. Many of the students enjoy challenging one another to get the highest LiteracyPlanet score so as to win a certificate and beat their friends!

“

LiteracyPlanet is the one learning resource that our students ask teachers to use. They have a special affinity for Intrepizine and the variety of articles they can read and learn about.

”

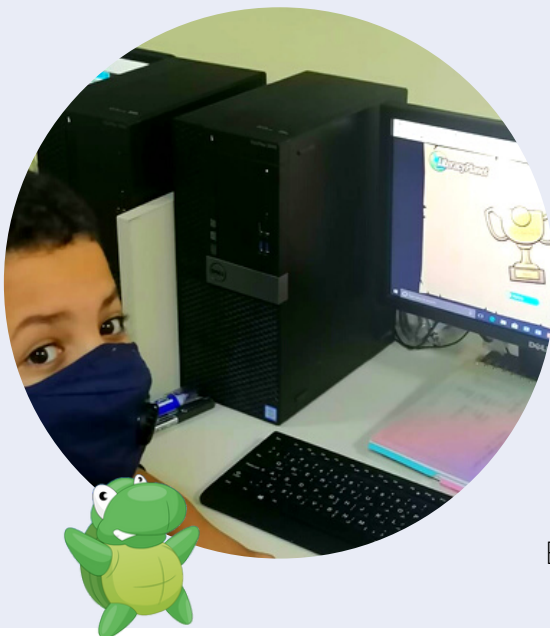

Mr. Muhammad Antar Elsayed Ibrahim
English Teacher

The main objective of LiteracyPlanet, of course, is to improve students' literacy learning outcomes. And for the students at Aqeeq International School, this has certainly been the case. Most noticeable is the improvement in their vocabulary and reading skills. The educators put it down to the program being fun to use. It has developed them to be deeper thinkers; questioning and challenging concepts and discussion points, and further diving into lessons to learn even more.

A perfect combination of fun, learning, and differentiation that improves students' literacy learning outcomes.

From an educator's perspective, the teachers at Aqeeq International School appreciate the comprehensiveness of the LiteracyPlanet tool. The way it incorporates all the key strands of literacy and allows for differentiated approaches to learning has made a significant difference in the learning outcomes for their students. Students especially enjoy the comprehension and grammar missions but have a special affinity for Intrepizine and the variety of articles they can read and learn about. They also love spelling activities for the fun aspect, while seeing their results improve.

“

LiteracyPlanet is one of the best international education platforms for students to improve their learning outcomes in a fun and engaging way. We had to roll it out in our school.

”

Mr. Ahmed Sherbini

Executive President of Aqeeq Holding Company

“A teaching masterpiece”

Thanks to the students' success in the Word Mania competition, the school considers LiteracyPlanet to be one of the best international education platforms for students to improve their learning outcomes. “We are deeply grateful to LiteracyPlanet for this teaching masterpiece. It has made such a marked difference to the education our schools can deliver,” concluded Mrs. Elham Khashim, Executive Vice President for Girls Education Sector.
