

How To Play

- 1 Print each picture game board and 6 copies of the letter cards. Cut the cards out then laminate all elements to create a sturdy set.
- 2 Supply each student with a game board and a set of letter cards.
- 3 A 'caller' says each sound covered in the game set. Students check their boards for pictures that begin with the nominated sound and then cover them with matching letter cards. The first student with a completely covered game board wins.
- 4 Differentiate the game by using counters in place of the cards. Or, mix and match the game boards and cards from Sets 1 and 2.
